Education

Master's in Information Technology
Shahjalal University of Science and Technology

Jan. 2025 – Present
Sylhet, Bangladesh

B.Sc. in Computer Science and Engineering
Leading University, Sylhet
CGPA: **3.81** on a scale of **4.00**

Jan. 2020 – Dec. 2023
Sylhet, Bangladesh

Higher Secondary Certificate
Sunamganj Govt. College, Sunamganj
CGPA: **4.08** on a scale of **5.00**

Jul. 2017 – Jun. 2019

Secondary School Certificate
Dowara Bazar Model High School, Sunamganj
CGPA: **4.64** on a scale of **5.00**

Jan. 2015 – Apr. 2017

Research Interests

Machine Learning, Deep Learning, Computer Vision, and Image Processing

Work Experience

Lecturer (Adjunct)
Department of Computer Science & Engineering
Leading University, Sylhet, Bangladesh.

Jul. 2024 – Present

Undergraduate Research Assistant,
InteX Research Lab

Oct. 2023 – Oct. 2024

Research Title: “Deep Learning and Context-Aware Mobile Computing for Improved Academic Supervisory Processes” [Accepted]

Publication

Ali, N., Shorme, I., **Hira, M.M.H.**, Munim M.A. & Kohinoor M.S.R (2024). **Deep Learning and Context-Aware Mobile Computing for Improved Academic Supervisory Processes.** *5th International Conference on Electrical and Electronics Engineering (ICEEE)*. Index: Scopus. (PP 469-483). DOI: 10.1007/978-981-97-9112-5_28

Shakib, S., Chowdhury, M. J. U., **Hira, M.M.H.**, Chowdhury, T.E., Deb, S. Advanced Sentiment Analysis of Social Media and E-commerce Reviews Using Machine Learning and Deep Learning Models [Under Review]

Optimizing Health Outcomes through Machine Learning-Enhanced Lifestyle Management in a Mobile Application. [On process]

Project

1. Project Manager

- This app helps to submit a project/thesis proposal. Mark evaluation of projects/thesis can be done through this app.
- That was collaborative work where I contributed to building feature proposal submissions.
- This app has been in use by Faculty members of the Dept. of CSE, Leading University since the spring 2024 semester for thesis/project submission and evaluation.

2. FitSens

- This app will help with issues like our lack of use of digital data, growing health crisis, tracking fitness, and difficulty maintaining a healthy lifestyle.
- Utilizing social sharing, exercise progress tracking, water intake monitoring, heart rate monitoring, calorie burn tracking, diet planner, sleep tracker, and personalized workouts are just a few of the features.
- That was a collaborative work in which I contributed to constructing features such as social sharing, exercise progress tracking, sleep tracker, and personalized workouts.

3. Supervision

- Supervision is a mobile application that helps supervisors and students communicate, share files, assign tasks, and track attendance in a thesis or project.
- It uses an Automated Attendance-taking System that uses facial recognition techniques to record student participation in meetings.
- It aims to simplify and speed up the supervisory working system and help users complete their work on time.

4. LU_Club_Inscription

- It was a Java Swing project with a MySQL Database for students to join and communicate with their clubs at the university.
- It helps them stay updated with the club's activities and events.
- It is a useful way to connect with other club members and share their interests.

5. LU Assistant

- This project used the OOP Concept using Java and File Handling to build it.
- It was a console-based CRUD operation project without any graphics.
- In this project, we build a system that can manage the student and teacher information (add, read, update, delete), as well as the tuition fee calculation.

Technical Skills

- **Programming Languages:** C/C++, Dart, Java, Python, MySQL
- **Tools:** Git, Vs Code, PyCharm, MATLAB, LaTeX.
- **Technologies:** Flutter, HTML, CSS, Bootstrap
- **Soft Skills:** Teamwork, Leadership, Communication

Award, Extra- Curricular Activities and Achievements

- **Outstanding Leadership Volunteer Award 2024**, IEEE Computer Society Leading University Student Branch Chapter.
- **Chair**, IEEE Computer Society Leading University Student Branch Chapter (Sep 2023 – Sep 2024).
- **Best Volunteer Award 2023**, IEEE Computer Society Leading University Student Branch Chapter.
- Completion of a Three-month course on “**Bootcamp on Mobile Application Development with Flutter**” from IEEE Computer Society Leading University Student Branch Chapter. (Sep 2022 – Nov 2022)
- **Logistic Executive**, IEEE Computer Society Leading University Student Branch Chapter (Sep 2022 – Sep 2023).
- 2020 ICPC Asia Dhaka Regional Online Preliminary Contest, Rank: 805 out of 1324 teams. Team: NOOBS_LU
